NEW FOR 1959

We are extremely happy to be able to offer these six new varieties to brighten up your Chrysanthemum display this fall. All six are suitable for border or cutting.

- 75c **MICHAEL**—(Ladygo)—A rich bright velvety purple, irregularly streaked with white. Makes a striking 3 to 4-inch bloom on a compact 24-inch plant. Really different. (See front cover.)
- 75c **NADINE**—(Ladygo)—Bright cardinal red 4-inch blooms. Earliest large red in our six-acre planting. Perpetual bloomer, produces flowers through the whole season. Long, individual stems. August through October. 20 to 22 inches tall, and just as broad. (See back cover.)
- 50c **SURPRISE**—(Ladygo) (Sport of Rose Bullis)—It is quite a surprise to see the red buds open to a bright golden yellow pom 1½ inches across, the edge of each petal remaining red, along with the eye of the rounded bloom. Firm and long-lasting, compact 20-inch plant. Pot, border, or cut.

NEW DR. KRAUS 1959 RELEASES

We are always happy to offer you these sure-to-please new GARDEN CHRYSANTHEMUMS. DR. KRAUS'S releases have been outstanding in our gardens, and we recommend them heartily.

- 75c **DARCEY WARREN**—Nice four-inch blush white double, a medium-height border type plant producing good quality cut flowers first week in October.
- 75c **DON POWELL**—Pleasing dark red to bronze solid button, nice compact-short to medium-height plant, prolific bloomer, excellent cut, good keeper. Mid-October.
- 75c **NEIL ACKERSON**—Bright four-inch double. Amber bronze. Nice in fall landscape and arrangements. Medium-height plant blooming early October. Named for Past President of the National Chrysanthemum Society.

HOW TO ORDER

Dear Friends:

PLEASE ORDER EARLY. Orders are filled in rotation and all orders are acknowledged by card containing an order number. Always mention this number when writing or calling about your order, or when adding to your order.

ALL PRICES ARE FOR ROOTED CUTTINGS.

MINIMUM ORDER \$5.00. WE PAY THE POSTAGE. Because of today's high shipping and handling costs, we have had to establish a \$5.00 minimum order policy. We pay the postage and orders are all sent special handling.

WE HAVE TO HAVE CASH WITH ORDER. You see, it takes so much extra time to handle COD orders, we'd have to raise our prices if we accepted them. Then nobody would benefit but the Post Office (and they claim they lose money on COD's too).

WEST OF THE MISSISSIPPI, WE ADVISE AIR MAIL. For airmail shipment, please add 10% of the total dollar value of your order toward air postage.

LOCAL ORDERS can be called for at the Nursery if they are ordered and paid for in advance. Orders are filled by number. Please specify on your order blank the approximate date you wish to pick up your order -- then notify us by phone or card two days in advance. We'll have your order ready.

NO DIRECT SALES, PLEASE. We're just not set up to do an over-the-counter business at our nursery during the Spring season. Field plants, of some varieties, are available in September and October, at Nursery only.

WE GROW CHRYSANTHEMUMS ONLY, and we list over 200 of our best, selected from over 400 varieties grown in our trial gardens. Our stock is carefully selected from plants that were inspected, disease-free, and specimen plants in our 8-acre planting. All our stock is outdoors during the blooming season and plants are guaranteed to be true to name and in healthy condition.

CUTTINGS ARE SHIPPED FROM FEBRUARY 15 TO JULY 1. Plants are well-labeled and packed, assuring you beautiful, sturdy blooming plants this fall. We will try to ship as close to specified shipping date as possible. Card will be sent at time of shipping.

WHEN YOUR PLANTS ARRIVE, if they are a little dry, cover the roots with water for a few hours or until the next day. Best time to plant is late afternoon or evening. If your garden soil is well-prepared and the weather is cloudy or the soil is wet, you can plant immediately. Keep soil well watered for a few days.

CATALOG PRICES GOOD 'TIL JULY 15.

Your friends,

Ann & Andy Ladygo

P. S. We expect to have an extensive display of English Imports, this fall. In order to be able to give our customers the necessary time to see the new varieties, the garden can be viewed only by appointment. We would like to know in advance if possible. Gardens close Nov. 1st. We are located six miles southwest of Cleveland Public Square, in the village of Brooklyn Heights, about 1/2 mile north of Brookpark Rd., which is Rt. #17. Van Epps Rd. is off of Schaaf Rd.

EARLY ENGLISH GARDEN EXHIBITIONS

Four to five-inch blooms, when grown in border, or spray form, over six inches if disbudded. The colors in this group are the loveliest. The quality of the blooms is superb. All are imports, that have been tried and acclimated here. Blooming dates are for our section.

How to classify your favorite **MUMS**

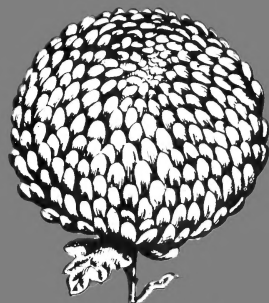

We've often had trouble in past seasons because customers weren't familiar with the names used by professional growers to describe their *Chrysanthemum* blooms. For example, people often order "pompons", expecting to get the blooms called "incurves." When that happens, of course, both we and the customer are unhappy so we thought some drawings of basic mum shapes might help. We wish to thank the Doubleday Publishing Co. for giving us permission to use these drawings of bloom forms contained in "The Complete Book of Chrysanthemums" by Cornelius Ackerson. Original drawings were made by Miss Aleanora Rose, staff artist for "Flower Grower".
